**CALL FOR EXTENDED
ABSTRACTS**

**4th National Symposium
on Agriculture
(Virtual Symposium)**

*"Technological Adaptation in Agriculture to Combat
Unpredicted Calamities"*

10th March, 2021

About the Faculty

The Faculty of Agriculture is one of the oldest Faculties of the Eastern University located at Palachchola, Kaluwankerni. The Faculty comprises six Departments, Over 40 academic staff and around 250 students. The Faculty at present offers Bachelors of Science Degree in Agriculture. In addition, the Faculty offers postgraduate degrees leading to MSc in Agriculture, MSc in Food Processing Technology, M.Phil and PhD degree Programmes. During the entire history, the faculty had maintained uninterrupted, intense and sustained activities committed to the course of promoting the application of Agriculture Science for the benefit of the nation and the region as well. The faculty expected to serve as a catalyst for the agricultural and socio-economic development of the region for teaching and research purpose and for the issue of planting materials, livestock products and breeding stock of farm animals to the public and plays a vital role in the upliftment of the socio-economic standards of the rural population.

About the Symposium

The Faculty of Agriculture, Eastern University, Sri Lanka welcomes you to the 4th National Symposium on Agriculture (4th NSA- 2021) under the theme of “Technological Adaptation in Agriculture to combat unpredicted calamities” on the 10th March, 2021. The Virtual Symposium is designed with the objective of delivering physical symposium experience via virtual mode by maximizing the opportunities to discuss the technological based adaptations in agriculture and other life and social sciences to combat the unpredicted calamities. The 4th NSA- 2021 takes the privilege to invite researchers, agriculturist, policy makers, engineers, economist, young budding scientist, and all other enthusiastic participants to exchange their experiences, novel ideas and research findings in all aspects at this national forum with nationwide experts and to discuss their practical challenges encountered and solutions to be adopted to battle against uncertainties with technological adaptations.

Benefits of Virtual Platforms

- One-day symposium with virtual access to all technical sessions
- Present and share your research work via the online platform Zoom
- Attend to the other presentations and join the Q&A session with audience at real time
- Interact and receive feedback from other participants and experts
- Evaluation of presentation by a panel of experts
- Obtain conference materials including proceedings via post/courier after symposium
- Presentations will be available at NSA website

Theme of the Symposium:

“Technological Adaptation in Agriculture to combat unpredicted Calamities”

Symposium Tracks

- Agribusiness Management and Farm Extension
- Agricultural Engineering Technology
- Climate Change and Disaster Management
- Crop production and Protection Technologies
- Food Nutrition and Value Addition
- Geospatial Technology for Agriculture
- Information Technology in Agriculture
- Livestock, Fisheries and Aquaculture
- Precision Agricultural Technology
- Soil, Water, Environment and Waste Management

Important Dates

Calling for Extended Abstract	: 10 th November 2020
Submission of Extended Abstract	: 20 th December 2020
Notification of Acceptance	: 20 th January 2021
Final Submission of Extended Abstract	: 01 st February 2021
Last date of Registration	: 10 th February 2021
Submission of Presentation	: 15 th February 2021
Symposium Day	: 10 th March 2021

Paper Submission:

We would like to invite you to submit your research/review paper/s for 4th National Symposium on Agriculture (NSA-2021). The symposium language would be English. Authors are kindly advised to follow author’s guidelines for the preparation and submission of Extended Abstract. Extended Abstract could be submitted via e-mail (nsa2021@esn.ac.lk) with author declaration form.

Publications

Proceedings of Abstract

All the Extended Abstracts submitted to Virtual Symposium on 4th NSA 2021 will be subjected to double blind peer review process and abstract of all the accepted papers will be published in the Proceedings of Abstracts and will be uploaded on the website.
